

## PROGRAM AND READ THERMO AND HYGRO BUTTONS VIA INTERNET VIA INTERNET

### DESCRIPTION

Thermotrack-Online.com is an Internet service to **program and read** your Thermo Buttons and Hygro Buttons data loggers **via the web**, without installing any software on your PCs. Only a login and a password are enough to use the service and perform all your controls. You can **access the website worldwide 24/7 from any PC** and can use the application on an unlimited number of computers.

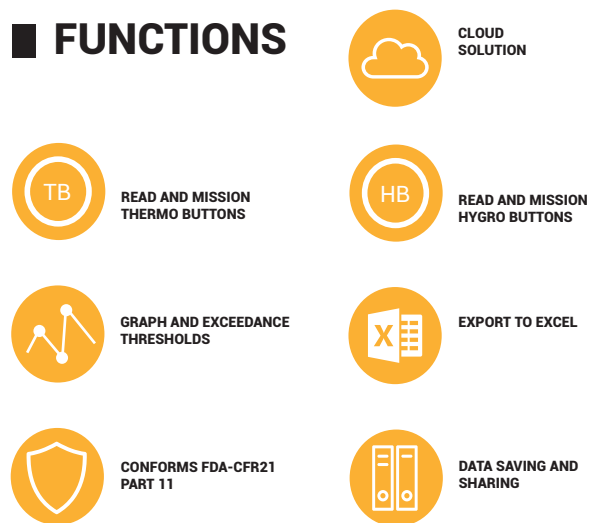

With Thermotrack-Online.com, you can also **share your data with your colleagues, customers, suppliers**. They just need a login and password from you.

Your temperature readings are **automatically archived** on our servers. You no longer have to worry about backups. We guarantee the archiving for 1 year.

You have a **private space on our servers** where only authorized persons can access.

Each time Thermo Bouton is read or programmed, an email can be sent to the person of your choice to share the temperature graph.
